

Products list (Tethered airship)

No	matter	performance	Delivery time (day)	Terms of payment
1	FZ300T: Material of Envelope : Polyurethane length :3M volume:5m3	Weight:2.5KG the sea level payload:2kg	5	100% by T/T. The buyer makes 100% payment after receiving this proforma invoice.
2	FZ400T: Material of Envelope : Polyurethane length :4M volume:8m3 the volume of the accessorial ballonnet: 2m3	Weight:5kg the sea level payload:3kg	5	
3	FZ600T: Material of Envelope : Polyurethane length :6M volume:15m3 the volume of the accessorial ballonnet: 4m3	Weight:8kg the sea level payload:5kg	5	
4	FZ800T: Material of Envelope : Polyurethane length :8M volume:30m3 the volume of the accessorial ballonnet: 10m3	Weight:20kg the sea level payload:15kg	5	
5	FZ900T: Material of Envelope :Polyurethane coated the cloth length :9M volume:60m3 the volume of the accessorial ballonnet: 30m3	Weight:30kg the sea level payload:25kg	10	100% by T/T. The buyer makes 50% down payment

6	FZ1200T: Material of Envelope :Polyurethane coated the cloth length :12M volume:90m3 the volume of the accessorial ballonnet: 40m3	Weight:55kg The sea level payload:40kg	10	after receiving this proforma invoice. And the 50% balance would be paid when before shipping the prepared product .
7	FZ1300T: Material of Envelope :Polyurethane coated the cloth length :13M volume:120m3 the volume of the accessorial ballonnet: 60m3	Weight:80kg the sea level payload:60kg	10	
8	FZ1500T: Material of Envelope : Kevlar rip-stop fibre coated the Polyurethane length :15M volume:160m3 the volume of the accessorial ballonnet: 80m3	Weight:80kg the sea level payload:80kg	15	
9	FZ1700T: Material of Envelope : Kevlar rip-stop fibre coated the Polyurethane length :17M volume:300m3 the volume of the accessorial ballonnet: 150m3	Weight:120kg the sea level payload:160kg	15	
10	FZ2000T: Material of Envelope : Kevlar rip-stop fibre coated the Polyurethane length :20M volume:450m3 the volume of the accessorial ballonnet:	Weight:180kg the sea level payload:250kg	20	

	200m3			
11	automatic pressure control system : control unit, valve, fan	Effective control the blimp pressure in the caused of temperature changes, gas leakage, large altitude changes	15	
12	internal lighting: Cold light , cable , switch		5	
13	printing		15	
14	Helium recover machine (Diesel Engine or electromotor)	The speed:0.42m3/ minute, call back the helium into the tanks	15	
15	Tethered rope	0.5 / 3ton power		
16	Video transfers(digital): Transmitter, receiving station, Antenna	10---30km video signal , transmit and receiver	20	
17	Three axes airphoto pan: Remote control pan of camera, transceiver (1000M range) of video, monitort, 6channel Remote control	. Total weight of 3Kg, the weight of the camera will be less than 3kg	15
